Supplementary statement showing Venereal Diseases of In-door and Out-door Patients by sexes, treated in the Dispensaries in the Bombay Presidency during the year 1922 96

Digitized with financial assistance from the Government of Maharashtra on 11 July, 2017

No. D.—1683A. OF 1923.

OFFICE OF THE SURGEON GENERAL
WITH THE GOVERNMENT OF BOMBAY:
Poona, 16th July 1923.

From

Major-General W. E. JENNINGS, M.D., K.H.P., I.M.S.,
Surgeon General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit, for the information of Government, the Triennial Report on the Civil Hospitals and Dispensaries of the Bombay Presidency for the period 1920—22.

Buildings and repairs.

2. The Hospitals have generally been kept in good repair. Owing to the financial situation it was not possible to provide several important works during the years under report. The following additions and improvements were, however, made during the period :—

(*a*) A new Dhobi Ghat was completed and taken into use at the Gokuldas Tejpal Hospital, Bombay, and it has proved to be very satisfactory.

(*b*) Minor improvements were made at the Bai Motlibai and Petit Hospitals such as the provision of gas burners in the two Hospitals, an electric installation in the House Surgeon's quarters, the supply of a hot water installation for the Petit Hospital, etc.

(*c*) An additional wing to the Nurses' quarters was built at the Cama Hospital, Bombay. The additional accommodation will relieve congestion, add to the comfort of the Nursing Staff and permit of a larger number of candidates for training being taken on.

(*d*) At the Ratnagiri Civil Hospital the verandahs of the observation cells for insanes were paved with Shahabad stone and a cast iron pipe drain was laid in the compound. A new block consisting of two quarters for officers of the Subordinate Medical Service was completed and occupied.

(*e*) At the Nasik Civil Hospital the undermentioned works were carried out with a view to improve the general sanitation of the Hospital compound :—

(i) Installation of pure water pipe.

(ii) Efficient drainage of compound.

(iii) Provision of a milk cattle shed.

(iv) Provision of polished marble flooring to the Operation Theatre, Police and Surgical wards and the Civil Surgeon's Office room and of glazed tiled dado lining to the main building.

The Civil Surgeon's bungalow was completed and taken into use.

(*f*) Wire netting was provided for the Operation Theatre at the Civil Hospital, Dhulia.

(*g*) A sink was provided in the mortuary at the Civil Hospital, Satara.

(*h*) The Civil Hospital at Sholapur was removed to the new buildings of the King Edward Memorial Hospital on 16th April 1922.

(*i*) The quarters for the Woman Assistant Surgeon were completed at the Belgaum Civil Hospital.

(*j*) A new maternity ward was completed at the Bijapur Civil Hospital.

(*k*) At the Ahmedabad Civil Hospital an X-Ray room was completed and handed over to the Hospital.

(*l*) A new mortuary was constructed and a new male ward added to the Civil Hospital, Sadra.

(*m*) At the Civil Hospital, Karachi, an Administrative Block of buildings was completed and taken into use.

STATEMENT A.

Hospitals and Dispensaries.

3. The total number of institutions open at the beginning of the triennium was 755 which rose to 782 during the three years under notice. The number of Local and

Municipal Fund Dispensaries increased from 310 to 327. Of the 17 new Dispensaries opened during the triennium 15 Dispensaries, *viz.*, those at Nagothna, Rahuri, Pathardi, Chandgad, Talikot, Suvali, Matar, Dhadgaon, Hukeri, Tankaria, Thasra, Virsad, Samaro, Johanpur and Digri were established under the scheme for providing additional dispensaries in districts by means of liberal grants-in-aid recurring and non-recurring, to municipal and local bodies.

STATEMENT B.

4. The total number of patients treated during the year 1922 was 25,49,200 as compared with 25,09,996 in 1921 and 24,52,051 in 1920. The mean number treated during the triennium under review was 25,03,749 against 25,63,040 in the previous triennium, *i.e*, 59,291 or 2·4 per cent. less. The decrease is due to the falling off in the number of out-patients who numbered 24,79,369 in 1922, 24,32,103 in 1921 and 23,77,104 in 1920. The number of in-patients was 69,831 in 1922, 77,893 in 1921 and 74,947 in 1920. The average number of in-patients treated during the past three years was 74,224 against 71,142 in 1917—19, an increase of 4·2 per cent.

5. The number of women seeking medical relief at Hospitals and Dispensaries during the past three years as in-door and out-door patients was 4,78,402 in 1920, 4,84,959 in 1921 and 4,88,419 in 1922. The average attendance of women at general hospitals and dispensaries during the triennium was 4,83,927 against 4,87,962 in 1917—1919.

6. In compliance with the scheme for employing Women Assistant Surgeons and Subordinate Medical Officers at Civil Hospitals such appointments have been made at the Civil Hospitals at Ahmedabad, Poona, Belgaum, Hyderabad, Dhulia, Ahmednagar, Nasik and Bijapur. The steady increase in the number of female patients attending general hospitals justifies the scheme and affords a reasonable indication for its extension to other places.

7. In furtherance of the plan for the establishment of special institution for the treatment of women and children by women doctors the opening of three more female hospitals in Sind was sanctioned during the foregoing triennium but had to be postponed on account of the financial situation.

8. The mean daily average attendance of in-door and out-door patients for the triennium was 3,600·0 and 24,399·6 respectively against 3,631·8 and 23,078·9 for 1917-19.

9. During the triennium under review the average number of in-patients discharged cured was 49,813 against 48,070 in 1917—1919. The average mortality for the period was 6,682 against 6,893 for 1917—1919. The ratio of deaths per cent. to total treated was 9·0 as compared with 9·6 for the preceding triennium.

10. The number of beds available was 6,717 in 1922 as compared with 6,823 in 1919. As pointed out in the previous two triennial reports the present hospital accommodation in Bombay City is totally inadequate for its requirements. In order to make good this deficiency the extension of the J. J. Hospital, the provision of a children's hospital, improvements in connection with the other hospitals and the establishment of a hospital with 100 beds in connection with the School of Tropical Medicine had been proposed but all of them had to be postponed owing to the present financial situation.

STATEMENTS C I AND C II.

11. The following tables show the principal diseases among the in-door and out-door patients treated during the triennium and the mortality among in-patients :—

In-door.

Disease.	1922.		1921.		1920.		Mean for the triennium 1920—22.		Mean for the triennium 1917—19.	
	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.	Cases.	Deaths.
Cholera	72	27	105	51	189	95	122	58	739	337
Dysentery	1,385	268	1,720	273	1,666	263	1,590	268	1,573	200

Other tubercular diseases ...	4,820	4,675	4,310	4,595	4,123
Diarrhœa	70,338	37,520	43,383	50,413	49,137
Injuries (General and Local) ...	195,177	1,98,291	1,77,160	1,90,209	1,65,562

12. *Cholera.*—The disease was practically non-existent in 1920, a few sporadic cases occurring in Bombay City only. In 1921 it prevailed in some villages of the Ratnagiri District, in a mild form in the towns of Ahmednagar and Jalgaon, in epidemic form in Karachi and a few sporadic cases occurred in Surat. To check the spread of this disease the free distribution of Potassium Permanganate "treatments" and the disinfection of wells and other sources of water supply were carried out.

13. *Malaria.*—On account of abundant rains, huge inundations resulting from the unusual rise of the river Indus and rice cultivation round the towns a malaria epidemic of a severe type appeared in some parts of Sind in 1922. To counteract the prevalence of this disease in the Presidency quinine "treatments" worth Rs. 50,000 were put up for sale to the public as usual in malarious districts at cheap rates during 1920. In addition quinine "treatments." worth Rs. 1,50,000 were distributed free to the general public and school children in Sind and Kanara where malaria was more prevalent than elsewhere in the Presidency during these three years. Nine Officers of the Subordinate Medical Service were deputed for anti-malarial duty in the most malarious places in the Presidency including Sind in 1920 and 22 Officers of the same service in 1921. In view of the need for economy no arrangements could be made to depute officers for this work during 1922.

14. Touring Medical Officers were appointed in the Presidency to deal with unusual sickness following epidemics during the triennium as shown below :—

Year.	Officers of the B.M.S.	Officers of the S.M.S.
1920 ...	9	14
1921 ...	5	12
1922 ...	4 up to 31st March 1922.	12 up to 31st March 1922.

15. *Small-pox.*—The total number of in-door and out-door cases of small-pox treated during the year 1922 was 374. Of these 217 were unvaccinated, 123 vaccinated in infancy, 4 vaccinated in later life, 5 vaccinated after infection and 3 revaccinated. The vaccinal condition was not known in 22 cases.

16. *Tuberculosis.*—The total number of admissions for tuberculosis was 37,579 with 2,066 deaths during the triennium against 32,793 with 1,810 deaths in 1917—1919.

17. *Labour cases.*—The number of cases admitted during the triennium was 23,084 against 21,440 in the previous triennium.

18. *Plague.*—The city of Belgaum and its suburbs were affected with plague in 1922. Anti-plague inoculation was carried out at the Civil Hospital and also in the City. Officers of the Subordinate Medical Service were deputed for anti-plague inoculation work in the district whenever their services were required by the Local Bodies concerned.

STATEMENTS DI AND DII.

19. The attendance at Police, Canals, Forest and other state special Institutions was 59,475 in 1922 as compared with 59,651 in 1921 and 64,178 in 1920. The average attendance during the triennium under review was 61,101 as compared with 60,246 in 1917—1919.

20. The total number of patients treated at Railway Hospitals and Dispensaries during 1922 was 2,63,660 against 2,65,920 in 1921 and 2,42,839 in 1920, the average for the triennium being 2,57,473 against 2,36,528 in 1917—1919.

STATEMENT E.

21. The total number of in-door and out-door patients treated at private non-aided institutions during the year 1922 was 13,99,811 as compared with 14,45,915 in 1921 and 15,04,811 in 1920. The average number for the triennium was 14,50,179 against 19,01,154 in 1917—1919.

STATEMENT F.

22. Of the patients treated during 1922, 17,263 were Europeans and Eurasians, 15,88,349 were Hindus, 8,10,455 were Mussalmans and 1,33,133, belonged to other classes.

23. During the triennium under review there were on an average 18,589 Europeans and Eurasians treated per annum against 19,201, 15,76,199 Hindus against 16,32,856, 7,77,816 Mussalmans against 7,65,104 and 1,31,137 other classes against 1,45,878, in 1917—1919.

STATEMENT G.

24. During the year (1922) 96,536 surgical operations were performed on 95,925 persons with a mortality of 0·43 per cent. The mean number of surgical operations performed during the triennium was 99,142 against 98,576 in the preceding triennium. The average number of persons operated on during the three years was 98,476 with a mortality of 0·42 as compared with 97,724 with a mortality of 0·56 in 1917—1919.

25. The removal of tumours and cysts gave 1,356 operations with 10 deaths in 1922 against 1,572 with 12 deaths in 1921 and 1,514 with 7 deaths in 1920. The mean number of these operations was 1,481 per annum with 10 deaths against 1,414 with 13 deaths in 1917—1919.

26. Amputations numbered 651 with 32 deaths as compared with 711 with 28 deaths in 1921 and 738 with 44 deaths in 1920. On an average 700 amputations were performed per annum during the triennium with 35 deaths against 653 with 40 deaths during 1917—1919.

27. Operations on the eye numbered 8,071 of which 1,911 were for extraction of lens for cataract, against 8,760 in 1921 and 7,997 in 1920. The average number of eye operations for the triennial period was 8,270 per annum against 6,066 for 1917—1919.

28. Vesical calculi were removed by litholapaxy and lithotrity in 746 cases with 15 deaths against 751 with 16 deaths in 1921 and 1,005 with 15 deaths in 1920. Lithotomy was resorted to in 190 cases with 20 deaths against 224 with 11 deaths in 1921 and 188 with 20 deaths in 1920. The average number of operations for the removal of stone for the triennium was 1,035 per annum with 32 deaths against 1,150 with 42 deaths for 1917—1919.

29. Abdominal operations other than those for diseases peculiar to women numbered 1,778 with 101 deaths against 1,634 with 107 deaths in 1921 and 1,801 with 124 deaths in 1920, while for diseases peculiar to women the numbers were 120 with 1 death as compared with 105 with 3 deaths in 1921 and 139 with 3 deaths in 1920. The mean number of the former class of operations for the triennium was 1,738 per annum with 111 deaths against 1,721 with 158 deaths for 1917—1919 and that of the latter was 151 with 2 deaths against 160 with 4 deaths in the preceding triennium.

30. Operations for hernia numbered 337 with 23 deaths against 350 with 16 deaths in 1921 and 391 with 18 deaths in 1920. The mean number for the triennium was 359 per annum with 19 deaths as compared with 391 with 23 deaths in 1917—1919.

31. Operations for abscess of liver numbered 187 with 31 deaths against 138 with 30 deaths in 1921 and 169 with 37 deaths in 1920. The average number of operations for abscess of the liver was 165 per annum with 33 deaths as compared with 149 with 48 deaths for the preceding triennum.

32. Obstetric operations numbered 1,054 with 30 deaths against 938 with 31 deaths in 1921 and 1,044 with 38 deaths in 1920. The average number of obstetric operations for the triennial period was 1,012 per annum with 33 deaths against 1,131 with 45 deaths in 1917—1919.

33. Operations for conditions peculiar to women other than obstetric and abdominal numbered 657 with 6 deaths against 665 with 5 deaths in 1921 and 773 with 12 deaths in 1920, the mean for the triennium being 698 with 8 deaths against 1,008, per annum with 8 deaths for 1917—1919.

STATEMENT H.

34. The total income inclusive of cash balance amounted to Rs. 48,33,296 as compared with Rs. 48,50,317 in 1921 and Rs. 43,33,847 in 1920. Of the amount contributed in 1922 Rs. 4,87,395 were contributed by Local Boards and Rs. 7,30,596 by Municipalities. The interest on invested capital yielded Rs. 62,255. Miscellaneous receipts amounted to Rs. 6,12,721 of which Rs. 2,03,363 were contributed by the several Nursing Associations.

35. The total expenditure amounted to Rs. 44,00,762 as compared with Rs. 44,82,019 in 1921 and Rs. 40,08,377 in 1920. Deducting from this Rs. 2,40,295 remitted into the treasury on account of the hospital fees, sale proceeds of unserviceable

articles, etc., and Rs. 93,509 invested during the year the net cost for 1922 was 40,66,958. The average cost of each diet was Re. 0-5-8.

36. The average income for the triennium was Rs. 46,72,487 against Rs. 33,89,675 in 1917-1919. The average annual expenditure for the period amounted to Rs. 42,97,053 (of which Rs. 23,93,650 were contributed by Government and Rs. 12,20,125 by Local and Municipal Funds) as compared with Rs. 31,08,025 expended in 1917-1919. The mean percentage of cost borne by Government was 59·7 against 53·4 in 1917-1919. The average cost per patient during the triennium was Rs. 1-9-7 against Rs. 1-1-9 in the previous triennium. The increase was due to the general rise in prices.

STATEMENT J.

37. On the 1st January the invested capital stood at Rs. 12,47,364. During the year Rs. 93,509 were invested and securities worth Rs. 62,308 were sold leaving a balance of Rs. 12,78,565 at the end of the year.

GENERAL REMARKS.

Medical Schools.

38. The sub-joined table shows that at the close of the year there were 532 students attending the three Provincial Medical Schools.

Class of students.	B. J. Medical School, Poona.					B. J. Medical School, Ahmedabad.					Medical School, Hyderabad.					Total.
	4th year.	3rd year.	2nd year.	1st year.	Total.	4th year.	3rd year.	2nd year.	1st year.	Total.	4th year.	3rd year.	2nd year.	1st year.	Total.

Total ...	84	48	78	64	274	52	49	49	54	204	25	9	9	11	54	532

39. Full time lecturers in (1) Anatomy and Physiology and (2) Bacteriology and Pathology at the B. J. Medical Schools, Poona and Ahmedabad, have been appointed. An Honorary Lecturer in Dentistry has also been appointed during the triennium at each of the three Medical Schools in the Presidency.

HONORARY STAFF.

40. The practice of associating private Medical practitioners with the staff of the Medical Schools and allied hospitals at Poona and Ahmedabad continues to work satisfactorily.

NURSING ESTABLISHMENTS.

41. Two new Nursing Associations were started during the triennium under review, *viz.*, at Sholapur and Aden. The Civil Hospitals at Dhulia, Satara, Godhra, Kaira, Broach, Thana, Alibag, Ratnagiri, Karwar and Larkhana still remain to be provided with nursing staff. Owing to the present financial stringency the establishment of Local Nursing Associations throughout the Presidency and the reconstruction of the Bombay Presidency Nursing Association on lines which would admit of the formation of a regular graded Presidency Nursing Service had to be postponed.

MANAGEMENT OF HOSPITALS.

42. All the hospitals are fairly well equipped. Manufacture of the anti-rabic vaccine at the Bombay Bacteriological Laboratory has been sanctioned and treatment is given at the Laboratory as well as at the following six centres :—

The Civil Hospital, Karachi.
" " Ahmedabad.
" " Poona.
" " Belgaum.
" " Ahmednagar.
" " Karwar.

It is also proposed to open a centre at Rajkot.

43. The pay of the Medical Officers of the Bombay Medical Service and that of the Subordinate Medical Service has been revised and the substitution of Post-Graduate

study for the officers of the Bombay Medical Service instead of their septennial examinations has bean sanctioned during the triennium under review.

44. The establishment of the School of Tropical Medicine at Parel has had to be postponed on account of the financial situation.

I have the honour to be,

Sir,

Your most obedient servant,

W. E. JENNINGS, M.D.,

Major-General, I.M.S.,

Surgeon General with the Government of Bombay.

APPENDEX I.

CIVIL HOSPITAL AND DISPENSARY STATISTICS.

STATEMENT A.

Showing the number of Civil Hospitals and Dispensaries in the Bombay Presidency during the year 1922.

[Total Population of the Province—26,757,648.]

Class of Civil Hospital and Dispensary.	Number open on 31st December 1921.	Number opened during the year 1922.	Number closed during the year 1922.	Number open on the last day of the year 1922.	Remarks.
1	2	3	4	5	6
I.—State—Public ...	53	.....	.....	53	
II.—State—Special—					
(i) Police ...	5	.....	(a) 1	4	(a) Police Training School, Nasik.
(ii) Forests and Surveys ...	1	.....	.....	1	(b) Deccan College Dispensary, Poona, and Commissioner in Sind's Establishment Dispensary, Karachi.
(iii) Canals ...	5	.....	.....	5	(c) Digri in Thar and Parkar District.
(iv) Others ...	16	.....	(b) 2	14	(d) Vambori in Ahmednagar District.
III.—Local and Municipal Funds ...	327	(c) 1	(d) 1	327	(e) 1 each in Nasik, Broach, Ahmedabad Districts and Sholapur Agency, 2 in Dharwar and 7 in Ratnagiri Districts, 4 each in Surat and Kathiawar, 5 in Palanpur Agencies.
IV.—Private—Aided ...	17	.....	.....	17	(f) 2 each in Poona, Ahmednagar, 3 in Thana Districts, 2 each in Thana, Kolaba, Satara, Rewa Kantha, Mahi Kantha, 3 in Kolhapur (S. M. C.) and 1 in Poona Agencies.
V.—Private—Non-aided ...	299	(e) 26	(f) 21	304	(g) Nandgaon and Shahbad.
VI.—Railways ...	55	(g) 2	.....	57	
Total ...	778	29	25	782	

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State' when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State Dispensaries which are open to the poorer classes of the public. Class II are State Dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries whether maintained by State railways or others.

LIBRARY OF THE BOMBAY BRANCH OF THE ROYAL ASIATIC SOCIETY

STATEMENT

Showing the number of In-door and Out-door Patients treated in the State-Public, Municipal and Local

BOMBAY : PRINTED AT THE GOVERNMENT CENTRAL PRESS.

Annual Reports.

Triennial Report on Civil Hospitals and Dispensaries in the Bombay Presidency for the years 1920-1922.

GOVERNMENT OF BOMBAY.

General Department.

Resolution no. P-47.

Bombay Castle, 30th November 1923.

Letter from the Surgeon General with the Government of Bombay no. D-5591, dated the 20th October 1923:--

" I have the honour to forward the Triennial Report on Civil Hospitals and Dispensaries of the Bombay Presidency for the years 1920-1922 and to state, for the information of Government, that there is nothing in it, the immediate publication of which can be considered of doubtful expediency."

RESOLUTION.--Recorded.

By order of the Government of Bombay (Transferred Departments),

S. N. ZIMAN,

Deputy Secretary to Government.

To

The Surgeon General with the Government of Bombay,
* The Director of Public Health for the Government of Bombay,
